

# TEST DRIVE YOUR OS ERP WORKSHOP

29-30 Nov 2007, KUALA LUMPUR

## Is **Open Source** (OS) the **Answer to ERP?**

A growing number of mid-market CIOs say yes. In the wake of recent ERP vendor consolidation, open source promises flexibility for the future. Plus it fits the need to customize — affordably.

*Galen Gruman*  
26 March, 2007, CIO Magazine

**Don't** believe what other people say,  
the best way is to **FIND OUT FOR YOURSELF!**

Malaysian National Computer Confederation (MNCC) in collaboration with Open University Malaysia (OUM) Open Source Community will be conducting a 2-day workshop to give you the opportunity to TEST DRIVE OS ERP. You will be taught how to install and configure an Open Source ERP system, i.e. Compiere and to assess how feasible it is for you to implement it in your organization.

organized by:

## YOUR FACILITATOR

Mr. Robin Hoo has over 15 years of experience implementing various ERP. His client base comprising local and the Asia Pacific region, range from SMEs to conglomerates and multinationals. He specialized in Financial, Sales and Distribution, and Manufacturing. Robin is Compiere and Baan certified. Robin is the first person to implement Compiere in Malaysia since way back 2003. Currently he has successfully implemented Compiere at 12 sites in Malaysia, Thailand and Indonesia.

## OUTCOME

- Upon completion of this workshop, the participants should have a good understanding on what is needed to implement an Open ERP
- The participants will take away an Installation CD for Compiere, 30 days of access to Online Support and Online Follow-up Training
- The participants should be able to start implementing small Open ERP projects in their organizations, and collaborate with other open-source groups on interesting ERP projects
